PROBLEM SOLVED

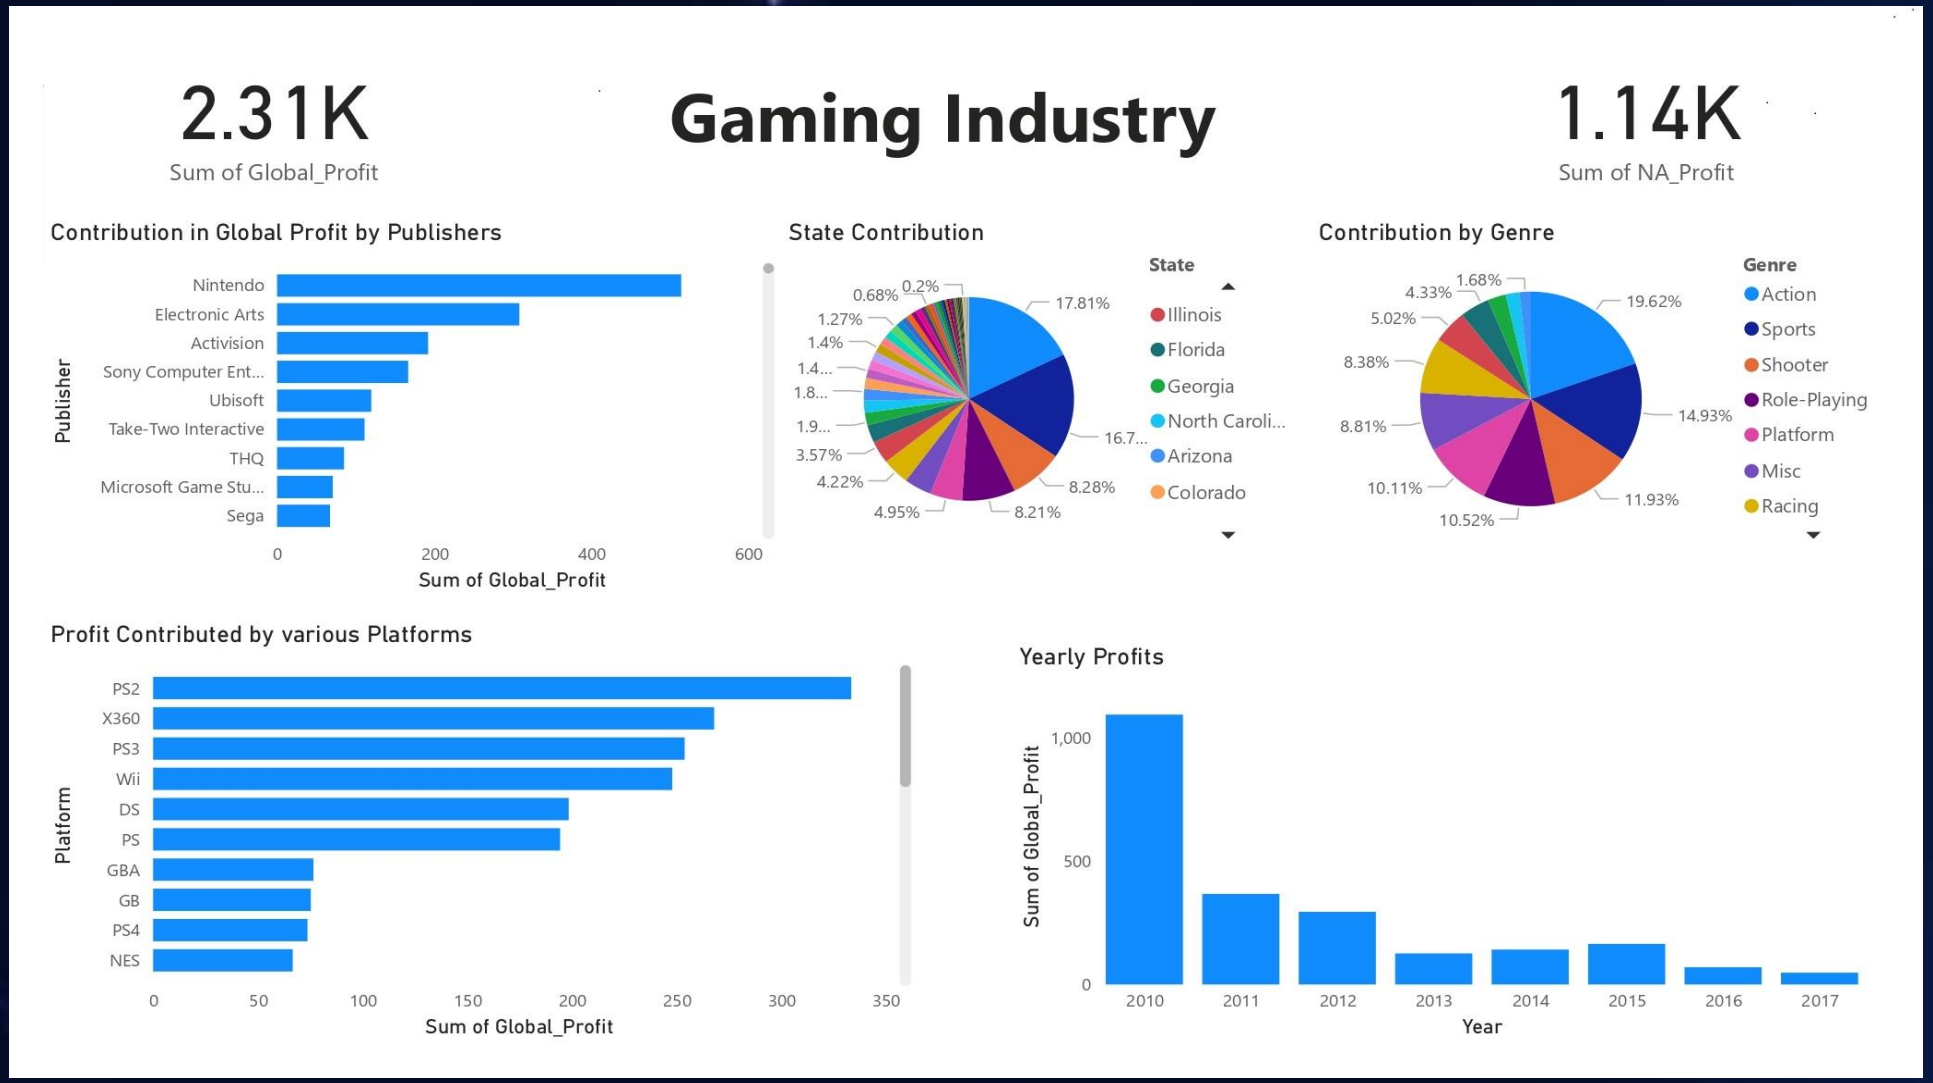
Analyzed the gaming industry dataset to help our businesse in making stratergic investment, allocate resources, competetive positioning and identifing potential threats by identifying the high growing platforms, publishers, generes, regions and accessing sales and profits to make our business grow.

DATA OVERVIEW

PLATFORM	NET ASSET SALES AND PROFIT
PUBLISHERS	GLOBAL SALES AND PROFIT
GENRE	COUNTRIES AND REGIONS

Gaming Industry dataset helps us to find which genre games are in demand, the platforms and publishers which are our competitors, the regions having high demand. These help us to anticipate risks and achieve our future goals . The dataset also consists of net sales and global sales which shows gaming industry growth over time.

DASHBOARD



GamingIndustryDashboard

INSIGHTS

- Most of the sales are of PS2 game by Electronic Arts in North South Wales
- People like to play Action games which they find interesting
- PS2 is the most selling game till now.
- Nintendo Publisher constitutes massively to the Gaming Industry sales

RISKS

- Nintendo and Electronic Arts are companies which have already established their market in Action, Shooting and Role Playing Games in New South Wales and California.
- The biggest isuue is the profit of Gaming Industry is declining day by day.

RECOMMENDATIONS

We have to bring something up which is demanded by the people most but are not satisfied like sports games people find them interesting and as a stimulator. These are in demand and we get less competition as Electronic Arts is the having most market of it. That can help us secure our position in the global market. The sports games are not losing their profits and sales easily.

GAMES

+ We should make Action shooting or role playing games as they are in high demand and contribute mostly to the gaming industry.

PLATFORMS

+ PS2 and X360 are most common platforms used by people to download and play games. We can use then to put on our games.

STATES

+ New Sowth Wales and California have most demand of these action and role playing games.
